

PRESS RELEASE

Bonso Electronics Reports Year End Results

HONG KONG, August 22, 2016 (Globe Newswire) -- Bonso Electronics International, Inc. (NASDAQ: BNSO), a designer and manufacturer of sensor based products, reported its financial results for the fiscal year ended March 31, 2016.

The Company reported a net income of \$2.87 million or \$0.55 basic and diluted income per share for the fiscal year ended March 31, 2016, compared to a net income of \$1.11 million or \$0.21 basic and diluted income per share for the fiscal year ended March 31, 2015. The Company has filed its Annual Report on Form 20-F, which includes its audited financial statements for its fiscal year ended March 31, 2016, with the United States Securities and Exchange Commission ("SEC"). The Company's Annual Report is available on the SEC's website at <http://www.sec.gov>.

Anthony So, the Chief Executive Officer of Bonso, stated, "We are pleased to report that our operations resulted in a favorable net income of approximately \$2.87 million for the fiscal year ended March 31, 2016. With contribution from rental income of approximately \$1.48 million, a gain of approximately \$0.52 million on disposal of part of our land use right and a gain of approximately \$0.72 million on disposal of a residential unit, our main operations on electronics products manufacturing contributed \$0.15 million of net income.

Mr. So stated, "Nonetheless, our core business of producing electronics products continues to be challenging, with net sales decreasing by 17.5% from \$28.9 million for the fiscal year ended March 31, 2015, to \$23.9 million for the fiscal year ended March 31, 2016. In the coming year, we believe that we will continue to face increasing cost pressure as the result of inflation, increased prices of raw materials and increased labor costs. Also, we expect that growth in the demand for our products will be limited. We will focus on research and development efforts and cost control initiatives to cope with the challenging environment we face."

About Bonso Electronics

Bonso Electronics designs, develops, manufactures, assembles and markets a comprehensive line of electronic scales, weighing instruments, health care products and pet electronics products. Bonso products are manufactured in the People's Republic of China for customers primarily located in North America and Europe. Company services include product design and prototyping, production tooling, procurement of components, total quality management, and just-in-time delivery. Bonso also independently designs and develops electronic products for private label markets. Bonso is also beginning the process to redevelop the land upon which its Shenzhen factory was previously located. For further information, visit the company's web site at <http://www.bonso.com>.
